

The Academy For Future Science

"Physical perception occurs by means of quantum processes."

- Dr. J.J. Hurtak

The Academy For Future Science is a non-profit corporation that examines new scientific ideas for the future. Through science and information technology, the world is undergoing major transformations in social, cultural, economic, and environmental dimensions. The principal goal of the Academy is to provide all people with educational and scientific tools that will help them meet the resulting challenges.

The Book of Knowledge: The Keys of Enoch® is a parapsychical text or "code-book". It is a text of higher consciousness experience which explains how the human race is connected with a more advanced higher evolutionary structure of universal intelligence. The linkage is made through 64 areas of future science, the basis of an ongoing study that is part of an ongoing program of human development, covering a wide spectrum of independent scientific confirmations.

The overview describes how The Book of Knowledge: The Keys of Enoch® prepares us for the paradigm shift that will affect all aspects of the social, psychological, and spiritual dimensions of life.

The Book of Knowledge: The Keys of Enoch® is a spiritual scientific textbook that in poetic science states the issues of the future. The Keys examines the puzzles of life and gives a spiritual explanation as to why we exist in this reality. It should be pointed out that this text was not "channeled" but given directly to the author in direct face-to-face experience with two beings of Higher Superluminal Intelligence. YHWH Now, more than two decades after its publication, people are continuing to learn new things from The Keys of Enoch® which in essence provides both the scenario of an ongoing past/present/future cosmology and a blueprint for a new direction in humankind's evolution into a higher state of consciousness. The Keys of Enoch® teaches us that a greater unity can and must occur between the scientific and spiritual pathways in order for the problems of Earth to be solved. Its ultimate purpose is the advancement of humanity, with the goal of changing our orientation so that we are prepared for a higher spiritual attunement and a quantum leap that will move humanity and the earth forward into the next step in our evolution. In this process an ultimate interaction is foretold, as we discover "greater families of intelligence in the universe who share the same Higher Evolution and the same Divine Source."

Particle (part-I-call) physics can separate us from the creative power of focused imagination. By seeing the principle of self-organizing flow in the universe, we can grok that it is mind as focus which holds together / to center, the vortex donuts which build matter.

Try visualizing exactly how the universe is self-organizing. In a "unified field" (One Substance) world, only one shape can self-stand as wave. The donut shape knows how to nourish and feed itself.

First, eddy's in the flow → resolve to vortex pairs, because shape is the only thing a unified field has to store as memory. This shape is the only one which "waves constantly to find structure". Re-member in turning to tie a slip (k)not, on the finger of inside out.

SEE ROBERT'S COPPER CONCH-SHELL COILS.

Classical "Hydrodynamic" (pressure&flow) physics tells us that only the vortex.....pair, torus donut can exist in a container having only One substance in it. "Shape inspired to self-remember".

Regarding the graphics on this page and the previous one, Stan Tenen originally created the 3-D geometrical models of these 'Flame Letters' and it was Dan Winter who brought them alive via exquisite computer animations.

Without the magic of their combined works the world would still be in darkness. The Phi revelations must enter the Global School Curricula, no excuses, no copyright, no-w.
